[23 FR 4616, June 25, 1958. Redesignated at 26 FR 12751, Dec. 30 1961, and amended at 36 FR 9290, May 22, 1971]

EXPENSES AND ASSESSMENTS

§916.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions of this part. The funds to cover such expenses shall be acquired in the manner prescribed in §916.41.

§916.41 Assessments.

(a) As his pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred by the committee during a fiscal period, each person who first handles nectarines during such period shall pay to the committee, upon demand, assessments on all nectarines so handled. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person during a fiscal period in an amount designed to secure sufficient funds to cover the expenses which may be incurred during such period and to accumulate and maintain a reserve fund equal to approximately one fiscal peri-

od's expenses. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all nectarines handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year's shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purposes.

§916.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in paragraph (a)(2) of this section, it shall be refunded proportionately to the persons from whom it was collected: *Provided*, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: *Provided*, That funds already in the reserve do not equal approximately one fiscal period's expenses. Such reserve funds may be used (i) to defray expenses, during any fiscal period, prior to the time assessment income is sufficient to cover such expenses, (ii) to cover deficits incurred during any fiscal year when assessment income is less than expenses, (iii) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative, (iv) to cover necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to

Agricultural Marketing Service, USDA

§ 916.52

be appropriate; *Provided*, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to the committee, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in the committee full title to all of the property, funds, and claims vested in such member pursuant to this part.

RESEARCH

§ 916.45 Marketing research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research and development projects designed to assist, improve, or promote the marketing, distribution and consumption or efficient production of nectarines. Such projects may provide for any form of marketing promotion including paid advertising. The expense of such projects shall be paid by funds collected pursuant to § 916.41.

[36 FR 9290, May 22, 1971]

(1) The estimated total production of nectarines within the production area;

(2) The expected general quality and size of nectarines in the production area and in other areas;

(3) The expected demand conditions for nectarines in different market outlets;

(4) The expected shipments of nectarines produced in the production area and in areas outside the production area;

(5) Supplies of competing commodities;

(6) Trend and level of consumer income;

(7) Other factors having a bearing on the marketing of nectarines; and

(8) The type of regulations expected to be recommended during the marketing season.

(b) [Reserved]

§ 916.51 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of nectarines in the manner provided in § 916.52, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for nectarines during the period or periods when it is proposed that such regulations should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 916.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of nectarines whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Limit, during any period or periods, the shipment of any particular grade, size, quality, maturity, or pack,

§916.53

7 CFR Ch. IX (1–1–06 Edition)

or any combination thereof, of any variety or varieties of nectarines grown in the production area;

(2) Limit the shipment of nectarines by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level;

(3) Fix the size, capacity, weight, dimensions, markings, or pack of the container, or containers, which may be used in the packaging or handling of nectarines.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary and the committee shall promptly give notice thereof to handlers.

§916.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §916.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of nectarines in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension.

§916.54 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§916.41, 916.52, 916.53, and 916.55, and the regulations issued thereunder, handle nectarines (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the committee, or from other available in-

formation, the Secretary may relieve from any or all requirements, under or established pursuant to §§916.41, 916.52, 916.53, or 916.55, the handling of nectarines (1) to designated market areas within the State of California; or (2) for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects established pursuant to §916.45), or in such minimum quantities or types of shipments, as may be prescribed.

(c) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent nectarines handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle nectarines pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the nectarines will not be used for any purpose not authorized by this section.

§916.55 Inspection and certification.

(a) Whenever the handling of any variety of nectarines is regulated pursuant to §916.52, or §916.53, each handler who handles nectarines shall, prior thereto, cause such nectarines to be inspected by the Federal or Federal-State Inspection Service and certified as meeting the applicable requirements of such regulation: *Provided*, That inspection and certification shall not be required for nectarines which previously have been so inspected and certified if such prior inspection was performed within such period as may be established pursuant to paragraph (b) of this section. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such nectarines. The committee may, with the approval of the

Agricultural Marketing Service, USDA

§ 916.62

Secretary, prescribed rules and regulations waiving the inspection requirements of this section where it is determined that inspection is not available: *Provided*, That all shipments made under such waiver shall comply with all regulations in effect.

(c) The committee may enter into an agreement with the Federal and Federal-State Inspection Services with respect to the costs of the inspection required by paragraph (a) of this section, and may collect from handlers their respective pro rata shares of such costs.

used in determining whether nectarines meet the minimum size requirements specified for each size category in this section applying the 16-pound sample. A sample consisting of one-half of the specified number of fruit for a particular size category shall be used, provided such sample weighs at least eight pounds. When one-half the specified number of fruit in a sample results in a number ending with one-half a fruit, the smaller full number of fruit shall be used to determine the sample weight. If a sample fails with respect to minimum size requirements on the basis of an 8-pound sample, a 16-pound sample shall be used to determine if the fruit meets the minimum size requirements.

April 1 through October 31, 2005, any handler may handle nectarines if such nectarines meet “CA Utility” quality requirements. The term “CA Utility” means that not more than 40 percent of the nectarines in any container meet or exceed the requirements of the U.S. No. 1 grade, except that when more than 30 percent of the nectarines in any container meet or exceed the requirements of the U.S. No. 1 grade, the additional 10 percent shall have non-scoreable blemishes as determined when applying the U.S. Standards for Grades of Nectarines; and that such nectarines are mature and are:

(i) Free from insect injury which has penetrated or damaged the flesh; split pits which cause an unhealed crack or one or more well healed cracks which, either singly or in the aggregate, are more than $\frac{3}{8}$ inch in length; mold, brown rot, and decay which has affected the edible portion; and

(ii) Free from serious damage due to skin breaks, cuts, growth cracks, bruises, or other causes. Damage to any nectarine is serious when it causes a waste of 10 percent or more, by volume, of the individual nectarine.

(iii) *Tolerances.* Not more than 10 percent, by count, of the nectarines in any one container may be below the requirements which are prescribed by this paragraph, including not more than 5 percent, by count, for any one defect, except split pits. An additional tolerance of 10 percent, by count, of the nectarines in any one container or bulk lot may contain nectarines affected with split pits. This means a total tolerance of 20 percent is allowed for all defects, including split pits, but not to exceed 15 percent for split pits alone.

(iv) The Federal or Federal-State Inspection Service shall make final determinations on maturity through the use of color guides or such other tests as determined appropriate by the inspection agency. The Federal or Federal-State Inspection Service will use the maturity guides listed in table 1 to paragraph (a)(1)(iv) in making maturity determinations for the specified varieties when inspecting to the “well matured” level of maturity. For these varieties, not less than 90 percent of any lot shall meet the color guide established for the variety, and an aggregate

area of not less than 90 percent of the fruit surface shall meet the color guide established for the variety, except that for the Tom Grand variety of nectarines, not less than an aggregate area of 80 percent of the fruit surface shall meet the color guide established for the variety. For varieties not listed, the Federal or Federal-State Inspection Service will use such tests as it deems proper. A variance for any variety from the application of the maturity guides specified in table 1 to paragraph (a)(1)(iv) may be granted during the season to reflect changes in crop, weather, or other conditions that would make the specified guides an inappropriate measure of “well matured.”

NOTE: Consult with the Federal or Federal-State Inspection Service Supervisor for the

maturity guides applicable to the varieties not listed above. On varieties with less than 10 percent surface ground color required to determine California Well-Matured, the stem cavity color will be utilized to make the determination. As a guide, stem cavities for most varieties should be at least yellowish-green as defined by the H maturity guide. Confirmation may be further established by using other California well matured characteristics. *Predominant ground color must be breaking yellowish green.

(v) If a grower or handler believes his/her fruit is meeting the appropriate maturity level but the fruit has not been so graded by the inspector, he/she may appeal the inspection by calling the officer-in-charge of the local Federal-State Inspection Service office to arrange for an on-site examination of the fruit.

A sample consisting of one-half of the number of fruit specified for a 16-pound sample for a particular size category shall be used, provided such sample weighs at least eight pounds. When one-half the specified number of fruit in a sample results in a number ending with one-half a fruit, the smaller full number of fruit shall be used to determine the sample weight. If a sample fails with respect to minimum size requirements on the basis of an 8-pound sample, a 16-pound sample shall be used to determine if the fruit meets the minimum size requirements.

(c) *Container tolerances.* The contents of individual packages in the lot are subject to the following limitations, provided the averages for the entire lot are within the tolerances specified in this part:

(1) For packages which contain more than 10 pounds, and a tolerance of 10 percent or more is provided, individual packages shall have not more than one and one-half times the tolerance specified. For packages which contain more than 10 pounds and a tolerance of less than 10 percent is provided, individual packages shall have not more than double the tolerance specified.

(2) For packages which contain 10 pounds or less, individual packages are not restricted as to the percentages of defects.

(d) As used herein, *U.S. No. 1, mature*, and *standard pack*, mean the same as defined in the United States Standards for Grades of Nectarines [7 CFR 51.3145 through 51.3160]; and *No. 22D standard lug box* means the same as defined in section 1380.19 (17) of the “Regulations of the California Department of Food and Agriculture”. *Well matured* means a condition distinctly more advanced than *mature*.
